RAYMOND

A live town in a rich agricultural and stock-raising district. A good place to make your home.

Volume 32

THURSDAY, MAY 18th, 1933

Number 11

Town Council

Meeting Is Held

Routine business occupied most of the time at the Council Meeting Thursday night last and items dealt with were:—

W. H. Ford was appointed Utility Man and Scavenger for the Town at \$85. per month for him and his team. Any fees made extra to be turned over to the town.

A by-law was passed appointing Ellison S. Hawk Chief Constable of the Town at a salary of \$75. per month.

Considerable discussion was had regarding the boy of Ernest Organ who is in school at Red Deer, and the opinion of the Council was that Mr. Organ should contribute to the cost, and an effort will be made to this end.

The payroll was passed as follows:—

E. S. Hawk	\$37.50
O. H. Snow	102.50
Sam Dyson	102.50
Dr. Leech	20.00
Mrs. Anderson	15.00
Mrs. Richardson	20.00
Mrs. Boyson	15.00
O. H. Snow	.60
Ray. Recorder	23.00
H. G. Love and Co.	8.50
Supt. of Neglected Children	882.00
Old Age Pensions	328.71
Baker Coal Mine	3.50
Jos. Gibson	3.00
S. B. Card	13.55
Club Cafe	5.65
John Rowelson	7.00
Raymond Recorder	20.00
Henry Jensen	20.00
Wm. Edwards	100.00
J. H. F. Green	10.00
Raymond Merc.	62.75
Western Mun. News	5.56
Alta. Gov. Telephones	10.66
G. C. Elliott	14.61
Ralph Bros.	.75
Workmen's Compensation Board	2.65
Can. Utilities	139.50
O. H. Snow	37.50
Harry Johnson	48.40
Geo. Brummond	14.40
John Hervey	34.25
Martin Blair	17.80
Alma Hancock	5.20
Loren Hancock	5.20
H. Ostlund	250.00

News Notes

Mrs. McCarthy returned last week from spending the winter in Utah and Washington, D.C., with members of her family. She has enjoyed the winter immensely, and is glad to be home again in Raymond.

See "Washington Merry Go-Round" Tonight or Friday at the Capitol. Also pictures of the California Earthquake.

Harry Parker and his helper from Cardston were here on Telephone business last Thursday, and were kept busy all day long.

Mrs. Wm. LaMarr, who is in the Lethbridge Hospital with a new baby, is not doing so well, and was seriously ill over the week-end. Everyone is hoping for her speedy and complete recovery.

The situation in Germany at the end of the week, and between this nation and France and Britain was very tense, following a dictum of Chancellor Hitler, to let Germany alone as regards armaments, etc. The paper stated that France and England were ready to send troops into the Rhineland if necessary to preserve the terms of the Versailles treaty.

J. Taylor Heninger Passes Away

John Taylor Heninger, father of Wilford Heninger and Mrs. Ray Knight, passed away at his home in Cardston at the age of 84 years, death being due to old age and a heart attack.

Funeral services were held in Cardston at 12 noon Sunday and in Magrath at 3 p.m. and interment was in Magrath by the side of his deceased wife.

John T. Heninger was a man of faith, courage and devotion and after many years residence at Magrath, he spent his last years at Cardston doing work in the Temple. He had filled several missions for the Church and was ever ready for service.

While we sympathize with the family in their loss, we rejoice at the record of service and devotion left by the deceased.

Christensen Home Scene of Blaze

The fire wagon was called out Saturday just after noon to the P. J. Christensen home where a crowd quickly gathered and excitement was high for a few minutes.

The fire started in the roof, just by the side of the chimney which looked like a spark had gotten through the chimney in to the dry rafters and sheeting Mr. Christensen was planting garden at the time, and happened to look up and see smoke issuing from the roof, and he immediately turned in the alarm, and willing hands commenced taking the contents out of the house in quick order.

The fire brigade was soon on the scene, and despite some delays, because of trying to hurry so fast, soon had a stream of water playing on the blaze, and kept it from spreading, and held the fire damage to the roof, which will not be so expensive to repair, although the water damage to the plastering, etc., will be considerable.

Honors Come To Raymond Girl

Word was received last week that Miss Beth Walker, daughter of Mr. and Mrs. Jas. H. Walker, had won the medal for proficiency in her class at Normal School, a class which numbers over 220 girls, and that she had also won the scholarship, which entitles her to part of her expenses at Summer School.

This is a distinct honor for Miss Walker, and we congratulate her for her interest and hard work in winning these awards.

RENEW YOUR RECORDER

Mrs. T. C. McBeath and children, of Calgary, spent the week-end and Mother's Day with relatives in Raymond.

Delbert Coteley took very bad with an attack of asthma Saturday night and was hurried to the Lethbridge Hospital by Ross Humphries in his car. He returned the same night after a treatment, but will undergo an operation for tonsils and adenoids in an effort to relieve and effect a cure.

Mother's Day Is Nicely Observed

Mother's Day was observed in both Raymond wards with appropriate services, in the morning in the First Ward, and morning and evening both in the Second ward. In song story and speech Motherhood was praised, and the mothers of men given the glory that is due them.

The morning program in the First Ward was under the direction of the Sunday School officers, and the Auditorium was filled almost to capacity. All mothers were seated at the front, and were presented with tulips, the Primary class under the direction of Mrs. John Allen acting as flower carriers. The program was as follows:—

Recitation—Douglas Allen
Duet—Misses Orpha Vance and Rosemarie Wood.
"Home" from Edgar A. Guest—T. Geo. Wood.

Instrumental Duet—Ralph and Harold Laycock, Violin and Clarinet.
Piano Duet—Misses Mary McBride and Shirley Taylor.
Song "It's Ma"—Gordon Coombs.

Two Minute Talks by Elder Weldon Bascom and Gerald Gibb, recently returned missionaries.

Violin Solo—Harold Laycock.
Public School Chorus—Directed by Milo Vance and Verna Nalder.

On outstanding feature of the program, which looked very nice, was the passing of the Sacrament by the Deacons, each of whom wore a white shirt, and a black tie; this uniformity of dress adding to the sacredness of the occasion.

At night in the First Ward, the two returned missionaries Elders Bascom and Gibb both gave splendid talks, in a very enjoyable Sacrament Meeting.

SECOND WARD SERVICES

The Second Ward Chapel was well filled Sunday morning also for the Mother's Day program there which was conducted by the Sunday School officers, and following the opening exercises the following program was carried out:—

Two minute talks—Misses Ione Humphries and Donna Galbraith.

Prayer of Thanks—Kindergarten Class.

News Notes

How is your subscription?

Howard Oliver of the Bank of Montreal staff, Calgary, was a week-end visitor in Raymond with friends.

Many kiddies went to Lethbridge on Monday for the Musical Festival held there the first of the week.

Mrs. Ethel Bunnie and children, of LeGrande, Oregon, are here visiting with her parents Mr. and Mrs. J. E. Evson.

REMEMBER—"Farewell to Arms" and Diamond Ring at the Capitol Saturday.

Arthur Garner and wife, who have been at Medicine Hat for several years, were in the district last week looking for a location and trying to find a home for sale in the town. Mrs. Garner thinks the prospects in Raymond district are much better than most districts of the Province, especially the south.

"Mother and Dad"—Recitation, Miss Joyce Duncumbe.
Exercise by the Kindergarten Class.

Song "My Mother"—Estelle Scoville.

Talk on "Mother's Day"—Bishop H. F. Allen.

Recitation—Little Dahl Girl.

Song "Summer Time"—Helga Anderson.

Story "Great Mothers"—Robert Walker.

Solo "Mother Macnee"—Wm. Sykes, Stirling.

Recitation—Elaine Scoville.

Remarks—Supt. Earl Scoville.

Story—R. Anderson, Jr.

Most of the performers were very young, and their efforts to honor Mother were well done and appreciated by the audience.

In the evening, a program, organized by a special Committee was carried out, and every number was honoring Mother because of her love, sacrifice and devotion. It was as follows:
Talk "Why We Celebrate Mother's Day"—Mrs. Pearl Keith.

A Tableau "Motherhood"—All mothers in the Ward with babies born since last Mother's Day were invited to participate and seventeen were grouped on the stage in a scene which will long be remembered by all who saw it. A musical reading on the subject was given by Mrs. C. O. Asplund while the Tableau was on.

Recitation "My Mother"—Little Girls.

Duet "Only One Pal"—Fritz Gehmlich and Moses Fromm.

Solo "Wonderful Mother of Mine"—Jos. McLean.

Reading "Grandpa and Grandma"—Melba King.

Reading "Old Fashioned Mother of Mine"—Miss Iris Jones.

Saxophone Trio—Louis and Shirley King and H. Fromm.

Story "And They Call It Mother's Day"—Frank Smith.

"Tribute to All Mothers"—Showing four generations of a family: Mrs. A. Erickson, Mrs. D. A. Bennett, Mrs. D. C. Peterson and daughter Joan. Mrs. Asplund gave another reading while this was being shown.

There were 500 people in attendance at this service and the Chapel was filled to capacity.

Born to Mr. and Mrs. Rex Meeks, on Thursday, May 11th, a baby girl. Mother and daughter are doing nicely.

J. Earnest Duce, of Cardston, father of Mrs. Leonard Webster, died suddenly at his home Wednesday morning.

Quite a number of men were put on at the Factory the first of the week, and there are still many to go to work as soon as the work can be advanced far enough to use them.

Messrs. and Mess. J. C. F. Follestrup, Iva McBride Wm Wiggle, C. D. Conrten and Dr. Leech attended the closing Festival program in Lethbridge last night.

Don't forget Saturday night this week, May 20th, a Diamond Ring is being given away at the Capitol Theatre. There is a splendid programme for your entertainment. One place in the ad. last week regarding this read, May 30th, the date however is Saturday, May 20th.

Raymond School Wins

Festival Awards

News Notes

Mrs. Witbeck is improving slowly from her stroke and hopes are high for her recovery.

REMEMBER—"Farewell to Arms" and Diamond Ring at the Capitol Saturday.

Mr. and Mrs. Wm. Cooper of Cardston were Raymond visitors Sunday.

Derald West had a runaway with a disc Tuesday and received a nasty cut on his head.

Mr. and Mrs. Athol Cooper, and Mrs. Phoebe Smith, all of Cardston, visited with relatives here on Sunday.

Latest reports state that Mrs. Wm. LaMarr is slowly improving from her serious and lengthy illness.

Born to Mr. and Mrs. Mutt Ralph on Friday, May 12, a baby boy. Mother and son are doing very nicely.

Ruth Kimball was operated on for appendicitis at the Hospital in Lethbridge Monday and is progressing favorably.

D. W. Card Sr., of Cardston spent a few days here this week. He is an uncle of S. B. Card.

Maurice Cooper has been helping his brother Reg. with his farming operations for a few days.

Wm. Paris was the first customer in the chair at the New Barber Shop of J. V. Heggie, in the stand of the old Japanese Shop.

A Golf Tournament will be held May 24th at the local course and qualifying rounds must be played before then on Saturday or Sunday next.

Pleas of temporary insanity should be admitted in cases where the victim was only temporarily murdered.

Something seems to have taken the life out of racketeering in New York. Bandits recently stole two coffins from an undertaker.

See "Washington Merry Go-Round" Tonight or Friday at the Capitol. Also pictures of the California Earthquake.

Quite a number of local people were in Cardston Thursday to attend the funeral services of David Card who died Tuesday night. The fact that his death was not very widely known at the time of the services accounted for the absence of many others who would have been there.

Mr. Wagner, Government Electrical Inspector was in town Tuesday, and in company with Sam Dyson, Town electrician inspected most of the business blocks and power wirings in town. Some changes were recommended.

Over 50 golfers, representing points all over Southern Alberta were on the local course on Sunday. Miss Margaret Gunning set a new ladies record of 56 strokes for the course, and Lee Brewerton and A. H. Zabriske are tied for the best record for men at 43 strokes for the 9 holes.

Nearly 100 pupils of School and all of the Public School Teachers attended the Musical Festival held in Lethbridge on Monday, and Raymond's entries made a very creditable showing. Through the generosity of citizens of the Town who furnished transportation free, the children had a great day of it, and the Principal wishes to thank all who assisted.

The School Chorus, coached by Milo Vance and Miss Verna Nalder, won first prize amongst the Town Chorus and won a beautiful Loving Cup donated for yearly competition by the Southern Alberta Teacher's Association.

Miss Mildred Boyson won first in the Grade VII and VIII elocution, tying with two other entries, and all were awarded first.

Nearly every entry from Raymond placed in the winners either fourth, fifth or sixth, and this in itself was quite an honor, as nearly every class in school competition had between twenty and thirty entries.

The showing was very pleasing to the staff, considering it was Raymond's first year in Festival work, and will give a great impetus toward greater achievement another year.

Seeding Is Well Advanced

Up to Saturday night last it was estimated that 60 p.c. of the seeding of beets had been done over the entire district, and that Raymond and vicinity was about on a par with other points. Grain seeding was not so far along, being probably 45 per cent completed.

Then two days this week permitted the seeding of a considerable additional beet and grain acreage, so that a conservative estimate up to the time of the storm Wednesday, would probably be 70 p.c. of the beet crop, and a possible 50 p.c. of the grain crop. Seed has been planted under ideal conditions and should make quick and healthy germination in all fields.

The snow which started falling early Wednesday morning will add surface moisture which will be extremely beneficial to the seed already planted, and will put the soil in excellent condition for the planting yet to be done.

Inspector Visits Public School

Inspector Owen Williams, has been visiting the School recently, and his report has been received, which shows the School to be in a very good condition, and he states that the standard of the school has been raised from 25 to 50 per cent in the last year, which speaks very well for the Principal and his staff.

Mr. Williams expressed himself as pleased with the work and progress of the school, and he took work from every class in school to exhibit to other schools on his Inspectorate.

We congratulate Mr. Hicken and his staff of teachers on this accomplishment.

Bob Salmon spent the week-end in Cardston visiting with friends.

Mr. and Mrs. Arthur Dahl, and Mr. and Mrs. I. B. Roberts were Cardston visitors Sunday to attend the funeral services of J. T. Heninger.

MORE ORGANIZATION NEEDED

The need of a well organized and thoroughly trained fire brigade, and individuals who can be on the job when needed, was demonstrated last Saturday, and without any desire to find fault, but merely to point out the necessity of training and an understanding of duties a few observations might be noted.

A good run was made from the Fire Hall to the scene of the fire, and the long hose stretched out in quick time. When the wagon got back to the hydrant however, there was no connecting hose from the fire engine to the hydrant to force up the pressure. This was retrieved with very little loss of time and a stream of water soon turned on the blaze. Then a ladder was needed, and it was discovered that all the ladders were a block away on the engine, and another trip had to be made to the engine to get these essentials.

Now, if every man had his job, someone to lay hose, someone or two to connect the short hose, and somebody responsible for the ladders, much of this could be obviated. It is of course easy to point out such things after. In case of fire people hardly wait to think and about the only safeguard is training that will cause them to do the right thing without much thinking.

Our fire fighting equipment is adequate for our needs under ordinary circumstances, and it is disconcerting to stand in the midst of a throng and hear such expressions as "Why n h -- don't they do something?" "They act like a bunch of old women." "Are they all dead?" and many such unsavory and thoughtless remarks. A little better understanding and a comprehensive division of duties might help to speed the work up and show greater efficiency in time of need.

Is it worth consideration? There is plenty of willingness, but willingness without objective and organization is more of a hindrance than it is help ful.

DID YOU EVER STOP TO THINK!

WILLIAM SOUTHERN, JR.,
PUBLISHER OF THE INDEPENDENCE (MO.) EXAMINER, SAYS:

"If you for any reason suddenly found your community without a newspaper there would be a big mass meeting sponsored by the Chamber of Commerce methods would be adopted to induce somebody to start a paper, probably a bonus would be offered and advertising contracts promised. Every community wants a newspaper of its own a paper which is the only paper published in the world that cares a darn for that particular community.

"This means that a newspaper is considered an asset to any community. It means that a community without a newspaper is not much of a community.

"Did you ever stop to think that in order to be of great est value to its community a newspaper must be prosperous; that it must earn by legitimate

New Customers

VEL'S BARBER SHOP

Next To Togo Cafe

support from subscribers and advertisers a sufficient amount to be able to put out a worthwhile paper? That the better supported your home paper is the more value it is to the community and the more able it is to do real things?

"Did you ever stop to think that every dollar you spend on hand bills, which are of no value as advertising and which are deemed a nuisance by the housewives, you take away the legitimate newspaper and make it harder for that newspaper to be of its finest service? Did you ever think that the advertising money given to free papers and hand bills, which are of no value to your community, weakens your home paper just that much and is a knock on your town?"

"THE BETTER A COMMUNITY SUPPORTS ITS NEWSPAPER, THE BETTER ABLE IS THAT PAPER TO SUPPORT THE COMMUNITY."

HALITOSIS

Advertisers have made the public breath-conscious. By word and by picture, the possessor of an unpleasant breath is depicted as one who is cut off from society and shamed as if he or she were a leper.

Halitosis is disagreeable, and it may be so offensive as to keep people at a distance. It is also true that the victim is usually unaware of his condition, but as to whether or not there is great reluctance on the part of his family or friends to inform him of the fact, we do not know.

The most common error with regard to halitosis is the belief that bad breath comes only from some faulty condition of the mouth, and that, in all cases, it can be overcome by having a clean mouth.

The offensive breath may be due to the condition of the mouth. If the teeth are not thoroughly and regularly cleaned, food particles are left around the teeth; these particles cause unpleasant breath.

Dental plates or bridges may not be properly fitted, with the result that they cannot be cleaned with the tooth brush. This causes food to collect and the disagreeable odour to arise.

The gums may be infected pus may be present, and if so, an unpleasant odour is given to the breath. Any of the several inflammatory conditions which may occur in the soft tissues of the mouth may be responsible.

However, halitosis may be due to conditions outside of the mouth. Infected head sinuses, which drain into the nose may be responsible, as may also be some chronic disturbance of the digestive organs, or faulty elimination.

A clean, sound mouth is desirable. The mouth is the gateway of the body. Clean food should not be allowed to be contaminated by dirty teeth or infected gums before it enters the stomach. Clean teeth, free from decay, are essential to health. In addition, a clean and healthy mouth is essential to a sweet breath.

If the breath is unpleasant, the mouth is not necessarily at fault. If it comes from outside the mouth, it cannot be overcome by any amount of attention that is limited to the mouth.

Halitosis is not a disease. It is a system of some abnormal condition, and attention must be given to the cause as that is the only way to overcome the annoyance.

When 1,360 people were counted at the Sunday afternoon Conference Meeting, it found the Stake House filled to capacity. Benches were moved from other rooms of the building, as far as space would permit, and then many were left standing.

News Notes

Crowded out of last issue

Car salesmen are about as common as flies in the town here now, trying to land the people who have a desire to drive something different.

A load of wheat broke thru the crust of the road in front of W. A. Heninger's on Friday and the load had to be transferred to another wagon.

Bob Graham had a heavy drag on some of the streets last week, and this operation following the grader filled up the holes, and made the roads pretty good after the excessive moisture of the spring.

Canada is to float another \$750,000,000 loan in the near future according to news reports. Apparently the government has given up the idea of ever getting the country out of debt.

Fifteen thousand caragana seedlings were distributed this week through the Board of Trade from the Recorder office and these should make some beautiful and valuable hedges in a few year's time.

MAY: MONTH OF BEAUTY

Now comes May, one of the prettiest and most pleasant months of the year. Winter has gone, the sudden showers of April are past, the heart of summer has not yet come and vegetation prepared to spread with lavish hand its beauty all about us.

The origin of the name of most months is easy to trace. Not so May. It is generally agreed that it was named for Maia the Roman goddess of Spring, but there is also a theory that May is the abbreviated form of Majores and that the month was so called because it was held sacred to Juniores or younger men.

Originally, May was the third month, but it became fifth when the Romans placed January and February at the beginning of the year. It always has had thirty-one days. Its special flower is the hawthorn and its gem the emerald.

Since earliest times the first of May has been marked by outdoor festivities and children have danced about a Maypole for hundreds of years.

Today many schools have May-day festivals in which gay costumes, pretty flowers and dancing complete a most colorful picture. May is marked by few important historical anniversaries, compared to other months, and few holidays.

STRAW HATS AND HISTORY

The shop windows are bloom-
ing with straw hats of the mas-
culine variety, and there are
many bold spirits who have
donned the summery skimmers
defying good form and bad
weather at the same time. May
is the zero hour for going over
with a new topper, and perhaps
the sennits and milans, Bang-
koks and Panamas, will take on
added significance if some of
their history is recalled.

Straw hats have been gener-
ally used in Canada for only 60
years, but their history reaches
far back into antiquity. Mercury,
messenger of the gods and
himself something of a god in
his own way, is always shown
wearing the commonest sort of
straw hat. Praxiteles' statue
of one, which dates back to
350 B.C., is crowned with a
"stephanos", which is another
name for a straw kelly.

In more recent times investi-
gators have discovered that
Edmund Spencer, author of the
"Faerie Queene" disported in a
regulation straw hat in Eliza-
bethan days, and the 18th cen-
tury poet, Thomas Gray, of the
"Elegy" boasted that his straw
top-piece was lined with green.

Alberta News Bulletin

(Issued by the Publicity Commissioner, Government Buildings, Edmonton, Alberta)

HOMESTEAD ENTRIES

The provincial lands department during the first quarter of 1933 issued 534 homestead entries there being 156 in January, 187 in February and 191 in March. In the financial year ending March 31, 1933, there were 3,499 entries in all. The entries for April were 156, of which 28 were granted to women.

UNEMPLOYED BECOME GOLD HUNTERS

Equipped with well constructed "grizzlies" for washing gold, some 70 unemployed of Edmonton will enter the gold-hunting business along the Saskatchewan river within the next week or two. The equipment has been constructed under supervision by the men themselves. One outfit will require 50 men to operate, and there are other units requiring six men each. The new equipment is much advanced over the old-fashioned "grizzlies."

INVESTIGATE MILK PRICES

Announcement is made that the public utilities commission of the province will commence an investigation of the milk price situation in Edmonton, and Calgary within the next few days, under powers of legislation passed during the recent session.

ALBERTA FIRE LOSSES

Fifty per cent fewer deaths and a smaller property loss by well over a half-million dollars as compared with the preceding year are charged up against fires in Alberta during 1932 according to the annual report just compiled by the provincial fire commissioner's office. The death list numbered 12, against 24 in 1931. This is the smallest number on record in any one year. Nearly all the deaths caused by fire were of children under 15 years of age. There were 1,937 fires of all kinds last year, causing property losses of \$2,495,491. For the preceding year the figures were 2,067 and \$3,131,729. From 1920 to 1932, both years inclusive, the total property loss from fire in Alberta was \$33,067,123.

UNIVERSITY FEEDER'S DAY

The 12th annual feeder's day will be held at the University of Alberta farm on Saturday, May 27, with a full day's program. There will be a presentation and discussion of the live stock experimental work of the past year. The university extends an invitation to all interested to be present.

NATIONAL I.O.D.E. CONVENTION

The national convention of the I. O. D. E. of Canada, will be held in Alberta this year, taking place at Edmonton during the week of May 25.

SETTLEMENT CELEBRATES ANNIVERSARY

The famous Bar Colony of the Lloydminster district celebrates its 30th anniversary this year. The colony originally consisted of 2,000 Britishers who came out and located on homestead lands in the district now centering upon the town of Lloydminster, and known as one of the best farming districts in the west. The colonists had to trek the distance over land from Saskatoon to their locations.

FURTHER RELIEF ON SCHOOL LANDS PAYMENTS

Further relief to holders of school lands in the Province, whereby they will have opportunity to retain possession of their lands purchased under the School Lands Sales Agreements in view of the abnormally low

level of agricultural products, is announced by Hon. R. G. Reid, Minister of Lands and Mines.

With respect to purchasers who believe themselves to be in a position to complete their sales contracts, but who under present conditions are finding difficulty in meeting all payments, the Government announces that a purchaser making payment on account of interest out of the 1933 crop will be given additional credit of an equal amount on the books of the Department, this credit to be applied first on account of current interest and then on account of arrears. In other words any payments on account of interest will have double value for the purchaser. This arrangement will be made retroactive to apply to payments made since the first September 1932, so as to include any payments on account of interest made out of the proceeds of the 1932 crop. In the comparatively very few cases where the credit so established will be in excess of current interest and arrears the balance will be applied on account of the next year's interest. With respect to payments of principal under the agreements of sale, the purchasers will be billed as usual for the amounts due but where hardship is likely to result, the Government will not press for immediate payment of the sum due.

News Notes

How is your subscription??

T. K. Roberts was a Cardston visitor last Thursday.

Dr. F. M. Hall was a Calgary visitor last week with George Brewerton.

A couple of Dench cartage trucks from Calgary were in Raymond last week with a couple of large oil storage tanks for the Farmco Service Co.

There seems to be but one dissenting vote on the proposition that asphyxiation would be a fine thing for the advocate of asphyxiation of all over 50.

Crawling Cedar Yields High Grade Creosote

Enterprising Farmer makes a Living from Cropless Land

Provost, Alta., April 28—Where 99 men out of 100 would starve to death, T. Crouch, Metiskow farmer, is steadily becoming independent. Mr. Crouch resides in Hillcrest municipality, where the soil is unfit for the growing of grains and many farmers are finding it hard to pay taxes.

He conceived the plan to utilize the crawling cedar which grows in abundance on this type of land. He plows it up with a tractor, boils it and makes an excellent brand of creosote, better than that made from coal tar. It soaks through wood and is ten times handier. Land that is absolutely useless for anything is being utilized in this manner.

Mr. Crouch received permission from the municipality to use all the crawling cedar in Hillcrest and he pays for it at one cent a gallon of the creosote extracted from it. Merchants in several towns each way are undertaking to place it on the market. It is being sold in Provost at the Larson hardware. As it is better quality and a little cheaper, there is no doubt, states Mr. Crouch, it will sell itself.

There are many acres of this type of land throughout the country, especially in Ribstone municipality, 25 miles north and west of Provost, land that has been homesteaded and then thrown up 20 to 25 years ago, is being a total loss to the municipality. In the Vale municipality, 20 miles north of Metiskow, there are many more miles of this arid land.—Provost Herald.

especially barnyards, must be cleaned
up by May 24th, as ordered by the
Health Inspector.

TOWN OF RAYMOND

News Notes

Miss Lolla Williams, teacher
at Welling, spent the week-end
at her home in Cardston.

WANTED— Sheep for sum-
mer pasture, 8c per head per
month. Spring lambs included.
Geo. Atwood, Box 294, Ray-
mond. 2M25.

Cows Wanted to Pasture—
\$2.00 per month. No cows
accepted without pay in ad-
vance, and no breachy cows
accepted. Not responsible
for cows in any way.

R. T. Graham.

The Raymond W.I. held
their regular meeting last
week at the home of Mrs. Lee
Brewerton, who also demon-
strated frozen desserts, etc.
Mesdames Jas. Fisher and J.
O. Hicken were delegated to
the Convention in Calgary on
May 16 to 19th. Solon Low
gave an interesting talk on
"Canada and Its Govern-
ment." The next meeting will
be June 8th at the home of
Mrs. A. W. Kirkham.

INDUSTRY SPURTS

FORWARD

When production was at its
peak steel and electric power
output and car loadings were
widely accepted as accurate
barometers of business trends.
Business rose and fell with
them. But there came a day
when the world wished it did
not so implicitly trust these
barometers, for they forecast
anything but fair business weath-
er.

Today the country is only
too willing to let these indi-
cators make their economic read-
ings for them. Each successive
reading is better than the last
and all signs point toward a
long spell of good weather.

Six weeks in a row electric
power output has increased, in-
dicating a marked industrial
pickup. It is higher now than
at any time since July 1931.
Any increase in electric power
consumption at this time of the
year must come from the fac-
ories and mills.

Steel production has trebled
in recent weeks over the coun-
try as a whole and even more in
some districts. The industry is
operating at nearly 50 per cent
of capacity, whereas only a few
weeks ago it was virtually shut
down. Was there ever an in-
dustry to stage such a remark-
able come-back?

Clearing house records re-
flect a rising tide of business
and improved banking conditions.
Payments by check increased
\$27,000,000 last week, bringing
the total within that amount
of the 1932 figure. A consid-
erable gain in retail sales was nec-
essary to overcome the handi-
cap of frozen bank deposits
and closed banks.

Here are gains that are more
than satisfactory. The country
while it needs more, would
have considered itself lucky
with less.

DID YOU EVER STOP TO THINK?

By Edson R. Waite
Shawnee, Oklahoma

JAMES T. JACKSON, PUB-
LISHER OF THE SEMINOLE
(OKLA.) PRODUCER, SAYS:

"The old-fashioned merchant
who didn't believe in advertis-
ing is as extinct as the dodo
bird. Advertising has come to
be considered as important a
part of the budget of every busi-
ness as rent, clerk hire and
lighting.

"And businesses advertise in
many different ways. The win-
dow displays in modern mer-
cantile establishments are mute
advertisements. Their attrac-
tiveness or lack thereof may
spell the success or failure of
the firm. Signs are nothing
more nor less than advertising.
Even the margin of difference
between indifferent service to
customers and speedy courteous
service might well be labelled ad-
vertising.

"Newspaper advertising is
considered the backbone of ev-
ery important advertising ef-
fort, almost without exception.
Windows, direct by mail, person-
al solicitation, radio, billboards
and every other medium center
around and are directly related
to newspaper advertising in ev-
ery well directed campaign.

"The most thoroughly read,
and consequently the most ef-
fective newspaper group is that
great class known as 'home
town' papers. Individually
small, as a rule, they are col-
lectively powerful, and wield a
tremendous influence over the
thoughts and buying habits of
half the population of the na-
tion.

"CHECK THE SUCCESSFUL
FIRMS IN ANY TOWN AND
YOU WILL FIND THEIR AD-
VERTISING IN THE HOME
TOWN NEWSPAPER, CAR-
RYING A DIRECT AND POW-
ERFUL SALES MESSAGE TO
THE PEOPLE THEY KNOW
BEST. OFTEN THE ONLY
CONSCIOUS ADVERTISING
EFFORT OF THOSE FIRMS
IS IN THAT PAPER, WHICH
CARRIES THE ADVERTISING
BURDEN ALONE — AND IT
DOES IT WELL.

HOODING AND REARING TURKEYS ARTIFICIALLY

At this season of the year
many farmers are wondering
how to raise their turkeys. They
have plenty of turkey eggs on
hand and no broody hens with
which to incubate them. It is
not uncommon for large num-
bers of eggs to be wasted wait-
ing for chicken hens or turkey
hens to go broody. Artificial
incubation and brooding are en-
tirely satisfactory states the
provincial poultry commissioner
and in the end usually insure
more turkeys being raised than
if done in the natural way. It
is true that in incubators one
does not get as large a percent-
age of poults, but brooding ar-
tificially seems to give better
satisfaction with less loss and
quicker growth than when the
poults are brooded with hens.
For incubation, a temperature
about one degree less than for
chicken eggs gives good results
with the moisture slightly in-
creased. As soon as the hatch
comes off, and the birds are
thoroughly dry, the young
poults should be removed to
colony brooder, or where bat-
tery brooders are available, into
the battery brooder. As most
turkeys are hatched in May and
June, an oil burning colony
brooder will usually provide
sufficient heat and is more eas-
ily controlled on warm days
than a coal burning brooder,
although either will give good
results.
